### More Time for You

Refill less often by ordering 90-day supplies from Walgreens Mail Service Pharmacy or by using an Advantage 90 Network Pharmacy.

Your pharmacy benefit offers several options to save you time and money. By using Walgreens' Mail Service Pharmacy or Advantage 90-Network Pharmacy You will only have to order Your prescription four times a year. We recommend that if You have medications that You take every day you utilize the 90 day supply to save money and decrease the likelihood of missed doses because You did not remember to go to the pharmacy.

#### Mail Service Pharmacy

By following these simple steps you can ensure that You will never run out of medication:

- Go to [www.mywhi.com](http://www.mywhi.com), click the Mail Service Pharmacy link and register Your account.
- We suggest You view the short Walgreens Mail Service Advantage video. The video will explain how mail order works and what to expect.
- Have your doctor write two prescriptions: one for a 90 day supply and one for a 30 day supply. Mail the 90 day prescription to WHI mail service and save the 30 day prescription to take to Your local pharmacy in case of emergencies.
- Always allow two weeks for Your prescription to arrive.
- You may request refills online, review Your account, print registration and order forms, and view other important information.

#### Advantage 90-Network Pharmacy

If You prefer not to mail Your prescription to the mail service pharmacy You can get a 90 day supply at participating Advantage 90 Retail Network pharmacies.

- Go to [www.mywhi.com](http://www.mywhi.com), click the pharmacy locator link and search for an Advantage 90 Network Pharmacy in your area.
- Have Your doctor write your prescription for a 90 day supply.
- You do not have to mail in a prescription and You can still take advantage of lower copay for purchasing a 90 day supply.

Please find Your Copays below and note the significant savings when You purchase a 90 day supply of Your generic and brand medications. We care about Your health and have implemented the optional 90 day supply benefit to improve Your health outcomes and save You time and money.
